Summary

GIS analyst and land surveyor with 5 years of professional experience working in the Geospatial sector. I am highly focused with a comprehensive knowledge and understanding of project objectives and priorities in tight timescales. Since I graduated from Kingston University of London, my skill set has continued to develop towards the GIS field. My current role involves the production of static maps using ArcGIS 10.3, as well as the development of web-based maps using Javascript libraries and the online platforms CartoDB and ArcGIS-Online.

I am approachable and able to get along with both work colleagues and senior managers. I am looking to work for an organisation that offer the opportunities to advance professionally.

Highlights

- ArcGIS desktop 10.3/ ArcGIS-Online
 - CartoDB
 - AutoCAD 2013
 - Javascript
 - HTML/CSS
 - SQL
-

Experience

GIS Analyst **04/2015 to Present**
Company: Migrant Report **Sliema, Malta**

- Strategic Consulting, including partnerships with data providers and organizations that demand GIS services.

- Research and updating on web-mapping solutions, including the application of different JavaScript libraries (Leaflet.js , Mapbox.js, google.is , Cartodb.js), as well as research on complex SQL queries.

GIS Analyst **09/2014 to 04/2015**
Company: JLL (Jones Lang Lasalle) **London, UK**

- Establish, integrate, and develop GIS services solutions for both internal and external clients across different sectors providing lead in exploiting in-house property market data to make it spatially enabled.

- Discuss client's requirement, identify solutions and deliver the product in the form of static or web-maps.

Land Surveyor/Cad Technician **06/2012 to 11/2013**
Company: Maceiras & Esmoris **Arem'bar, Mauritania**

I took part in the development of a project for a rice field irrigation system. My role involved the checking of the project plans, identifying errors and updating the project plans.

Land Surveyor **09/2012 to 09/2013**
Company: Survey Solutions **Norwich, UK**

Land surveying and building surveying throughout Norfolk and Cambridge areas using robotic instrumentation (Leica Tcrp1205) for data collection and AutoCad 2013 for the production of maps.

Land Surveyor

03/2008 to 09/2011

Company: Isolux Corsan**Santiago de Compostela, Spain**

This role involves the setting out of concrete and metal structures, using geomatic technologies (Total Station, GPS, level) to contribute to the construction of two big infrastructures, the Santiago Airport and a section of the high-speed railway.

GIS Analyst

07/2003 to Present

Company: Studio Rafael Barreiro**Cangas, Spain**

I worked at Studio Rafael Barreiro every summer while studying at the University of Salamanca. As a CAD Technician I took part in several building projects creating both 2d plans and 3d visualizations.

Education

MSc: GIS and Sciences**2014**

Kingston University of London

London, U K

- Geographical data management (relational databases)
- Data modeling (Spatial analysis)
- GIS for hazards and emergency planning
- Dissertation: <http://studentnet.kingston.ac.uk/~k1345669/page08m.html>

BSc: Surveying and Mapping Sciences**2008**

University of Salamanca

Avila, Spain

I learned the foundations and methodology of data collection with topographical instruments, remote sensing and photogrammetry. The program encompasses several modules about cartographic techniques of data representation.

MSc: Town Planning**2003**

Polytechnic School of Vigo

Vigo, Spain

I learn the theoretical foundations of town planning and also undertook several projects where I acquired considerable experience in designing plans with Autocad.

Languages

English

Spanish (mother tongue)

Italian

Portuguese

Interests

I like reading and learning languages. I am passionate of traveling and discovering new cultures and places.
